These details are calculated on all athletes who compete in three events and the achievements gained are compared to the best of the last 10 achievements for that event and the percentage to this is found. The three percentages are then totalled and averaged to give a total out of 100 (or a percentage) this is then averaged over the athletes three events

This table works from the athlete of the match grading table created for each match. To be on the AOM grading table athletes need to complete in three events not including a relay. Therefore a "0" on this charts does not mean the the athlete did not attend

This is based on the average of the best two Results (These are to be in different matches)
